Pump Solutions for Life

A century of expertise in designing & providing engineered pumps solutions tailored to customers requirements

The unavoidable pump partner for your Desalination projects

40 years experience
Over 650 pumps
More than 50 plants equipped & serviced worldwide

Termomeccanica Pompe

TM.P. S.p.A. Termomeccanica Pompe
La Spezia - Italy
www.tmp.termomeccanica.com
TM.P. S.p.A. Termomeccanica Pompe, a pump designer by tradition whose history dates back as far as 1912, ranks today amongst the leading manufacturers and service providers of engineered centrifugal pumps solutions. Fields of applications range from Desalination, Power Generation, Water Handling to Oil & Gas and Heavy Industry.

The entire company revolves around developing and providing solutions tailored to our Customers & End Users projects requirements, whether they be related to products or after-sales services.

With regards to the Desalination market, Termomeccanica Pompe’s expertise of over 40 years covers all process and water intake services related to the various Desalination technologies such as MSF, MED and Reverse Osmosis.

To this day, more than 650 TMP pumps of total power of approx. 600MW (range from 100 kW to 5000 kW) have been installed in desalination plants all over the world.

**Product Range:**
Engineered centrifugal pumps & API 610 process pumps

**Service Activities:**
Supply of rotating machines
Supply of spare parts
Maintenance, overhaul & repairs
Rehabilitation (upgrading & refitting)
Plant shutdown global services
Re-engineering & reverse engineering
Technical assistance, supervision & other field services
Supervision to erection, start up & commissioning
Local and remote monitoring & diagnostics

**Head Office:**
La Spezia – Italy
